

?Upgrading Plans

How to Upgrade or Downgrade your Server plan

1. By navigating to your Server dashboard. Select the server you would like to upgrade or downgrade
2. Click on the "General" tab
3. Press on "Upgrade Package/Plan"
4. You will now be given the decision to change your current plan

Things to note

These plan changes are instant. Here at AtomicHost, we are about efficiency, and minimizing down time. This means, even when ever you upgrade or downgrade your server, you will not have to restart it!
